

Zhiqiu Yu

International Business Operations / Global Growth / AI-enabled Business Analytics

Open to Hangzhou and Shanghai | Expected Graduation: Jun 2026

☎ +86 15857143292 | ✉ jimmyyuzhiqiu@icloud.com | CET-6 567 | Python / Excel / Salesforce / AIGC / AI Coding | Business exchange in Finland

Profile

Candidate for international business operations, global growth and AI-enabled business analytics roles. I combine a business-school exchange in Finland, overseas market growth at SMM, CRM analytics at Jinhongqiao Mall, process-oriented operations at ING Bank, and project experience across AIGC, virtual production, quantum modeling, digital media and public website delivery. My core value is connecting customer leads, English business communication, commercial metrics and data / AI automation tools to support customer segmentation, growth review, workflow efficiency, commercial communication and cross-functional delivery.

Education

Communication University of Zhejiang

Hangzhou, China

B.E. in Electronic Science and Technology

Sep 2022 – Jun 2026 (Expected)

- GPA 3.8; selected for an interdisciplinary innovation class; coursework includes AI, signal systems, TV engineering fundamentals and virtual studio technology.
- Second-Class Scholarship for 2022–2023; Outstanding Student Leader for 2022–2023 and 2024–2025.

Kajaani University of Applied Sciences

Finland

Exchange Student, School of Business

2024

- Completed 40 ECTS of business coursework covering service design, leadership, HRM, law and economics, with GPA 3.75; participated in LUMI supercomputer quantum-computing experiment and international activity organization.

Skills

International Business	Overseas lead management, customer segmentation, partner / sponsorship support, English business communication, multilingual channels and exhibition growth review.
Data & Automation	Python, pandas, openpyxl, xlswriter, Excel, SQL, Salesforce and OCR; capable of cleaning, tagging, report generation and structured extraction.
AI / Creative Tech	AIGC, AI Coding, OpenClaw, Stable Diffusion, ControlNet, SadTalker, GPT-SoVITS, Unreal Engine and Maya for content workflows, virtual scenes and business prototypes.
Business Output	English emails, partner proposals, business reports, visual summaries and SOP documentation that translate data into executable business materials.

Internship Experience

Shanghai Metals Market (SMM)

Shanghai, China

Overseas Marketing & Exhibition Intern

Jan 2025 – Apr 2025

- Organized prospect, online registration and attendee datasets, including deduplication, categorization, field completion and priority sorting, to support lead screening, English outreach and sponsorship follow-up.
- Supported 20+ media partnership exchanges and maintained 30+ overseas partners / sponsors; contributed to attendee KPI overachievement by 24%; supported multilingual channels reaching 100K+ overseas users with around 25% engagement.
- Worked with Python and Salesforce to capture, clean and enrich customer leads, adding 200+ overseas company contacts; supported business 1v1 meeting coordination and lead tracking, contributing 3,102 traceable-source attendees.

Jinhongqiao Mall

Shanghai, China

CRM Analytics Intern

Oct 2025 – Nov 2025

- Automated 2020–2025 membership reports with Python, pandas and xlswriter, covering new members, year-end totals, YoY and MoM metrics, replacing repeated manual pivot-table work.
- Cleaned membership-level histories, month-level logic and cumulative metrics for CRM review and consistent reporting; built an openpyxl workflow for voucher redemption details and monthly campaign review.

ING Bank N.V. Shanghai Branch

Shanghai, China

Operations Support Intern (Payments / Reconciliation / Data Automation)

Dec 2025 – Mar 2026

- Handled transaction advice archiving, CNAPS / CFETS ticket monitoring and inward ticket matching with FX deal slips in a highly controlled international banking environment; supported CNAPS Daily Recon, monthly statement checks and broadcast checks.
- Built a Python extraction workflow and documentation for Annual Account Review materials, converting OCR / Excel review sources into structured tables with reusable field mapping and SOP rules.

Selected Projects

juyi.asia / dialflow.cn

Independent Project

AI-enabled Business Content & Website Delivery

2025 – Present

- Independently built and launched juyi.asia for cross-border 3PL supply-chain services and dialflow.cn for AI outbound-call / auto-dialing scenarios, using AI Coding and OpenClaw for information architecture, page generation, copywriting and iteration.
- Translated cross-border logistics, B2B service value and AI application concepts into public websites and business-facing materials, demonstrating AI-assisted commercial communication and business packaging capability.

Membership Growth Tool / Voucher Redemption Processing

Jinhongqiao Mall

Business Analytics Automation

2025

- Built repeatable reporting around membership growth, cumulative totals, YoY and MoM metrics, and generated voucher summary tables and selected voucher details from raw campaign data.
- The project emphasizes monthly repeatability, handover readiness and business review value rather than one-off spreadsheet statistics.

Annual Account Review Structured Extraction

ING Bank N.V. Shanghai Branch

Review Support Automation

2026

- Converted screenshot / OCR / Excel review materials into structured tables covering company names, contacts, addresses and registered capital, demonstrating the ability to turn messy source materials into reviewable data assets.

Automated Opening Sequence Generation

Communication University of Zhejiang

AIGC Content Workflow

2024

- Integrated Stable Diffusion, ControlNet, SadTalker and GPT-SoVITS into a multimodal workflow from script and image generation to voice output, producing 500+ opening sequences.
- Reduced single-output production time from around 30 minutes to about 5 minutes, a roughly 83% efficiency improvement; won Provincial First Prize and National Third Prize in the 17th Chinese Collegiate Computer Design Competition.

Virtual Battle Scene Generator

Communication University of Zhejiang

National Innovation Project Lead / Challenge Cup Bronze

2024

- Designed an AI-driven 3D virtual battle-scene generation solution for high-cost, long-cycle virtual-production scenarios, supporting automatic scene-model import into Unreal Engine, multi-camera switching and immersive demos.
- Selected as a National Undergraduate Innovation Training Program project and won Bronze Award in the Zhejiang Challenge Cup.

Childhood Scene

National Competition Project

Lanqiao Cup Visual Art Design Entry

2025

- Completed visual storytelling and digital-content presentation work; won First Prize in the National Finals of the 16th Lanqiao Cup Software and IT Talent Competition, Visual Art Design Track.

Qinglv Qianli Digital Animation

Communication University of Zhejiang

Digital Media Competition Entry

2023

- Participated in digital-animation concept development, visual expression and production; won National Third Prize and East China First Prize in the 11th National Digital Media Technology Works and Creativity Competition.

Quantum Numerical Modeling Competition

APAC Competition

International Modeling Competition

2023

- Used Python and MATLAB to optimize particle-interaction computation models for quantum-state evolution simulation, handling model debugging, parameter optimization and result validation; reduced error rate by around 15%.
- Team won Second Prize in the Asia-Pacific Region of the Wuyue Cup Quantum Mathematical Modeling Competition.

Honors, Awards & Activities

Jul 2025	First Prize, National Finals , 16th Lanqiao Cup Software and IT Talent Competition, Visual Art Design Track	China
Jan 2025	First Prize, National Finals , 6th Global AI Algorithm Elite Competition	China
Jun–Jul 2024	Provincial First / National Third Prize , 17th Chinese Collegiate Computer Design Competition	China
2024	Bronze Award, Provincial Round , Zhejiang Challenge Cup Student Academic Science and Technology Competition	Zhejiang
Nov 2023	National Third / East China First Prize , 11th National Digital Media Technology Works and Creativity Competition	China
2023	Second Prize, Asia-Pacific Region , Wuyue Cup Quantum Mathematical Modeling Competition	APAC
Jan 2023	Third Prize, Zhejiang Region , 12th Future Designer National University Art and Design Competition	Zhejiang
2023	Second-Class Scholarship , Communication University of Zhejiang, 2022–2023	Hangzhou
23 / 25	Outstanding Student Leader , Communication University of Zhejiang, 2022–2023 and 2024–2025	Hangzhou
2022–2025	Activity Evidence , University orchestra, public commercial performance, New Year concert and stadium performance materials	Hangzhou
